QAORI COOPERATIVE

**What Facebook, Uber, Amazon, Paypal, etc.
do for the money: Qaori does it for the people!**

25TH FEBRUARY 2024

A POSSIBLE PATH TO A RESILIENT ECONOMY

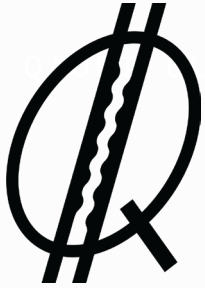

The Resilient Economy Program - - Qaori Cooperative

As part of the solution, we create an autonomous decentralized competency-based cooperative financial service platform: qaori.coop

The member-owned cooperative runs banking and crypto exchange services, a social marketplace and many attached services, free to use for all members, globally.

Independent from banks and governments, we beat inflation and provide a safe haven for the Many.

GLOBAL COOPERATIVE

Agenda

- What is Qaori?
- The Principles of Qaori
- What is Resilient Economy?
- Who is Qaori for?
- What problem does Qaori solve?
- What do we get when we join Qaori?
- Qaori financial services
- The Future of the economy

What is Qaori?

- Autonomous
- Decentralized
- Competency-Based
- Member Governance

A FREE DIGITAL SERVICE PLATFORM

Sell, buy, deliver, ship, book, pay, get paid, remit, transfer, withdraw, exchange, communicate, market, share, get a job or post an offer, meet business opportunities, join a network of global entrepreneurs! Imagine Ali Baba, Lazada, Amazon, Facebook, LinkedIn, Eventbrite, Job Center, all in one place and for free!

QAORI COOPERATIVE BELONGS TO THE MEMBERS

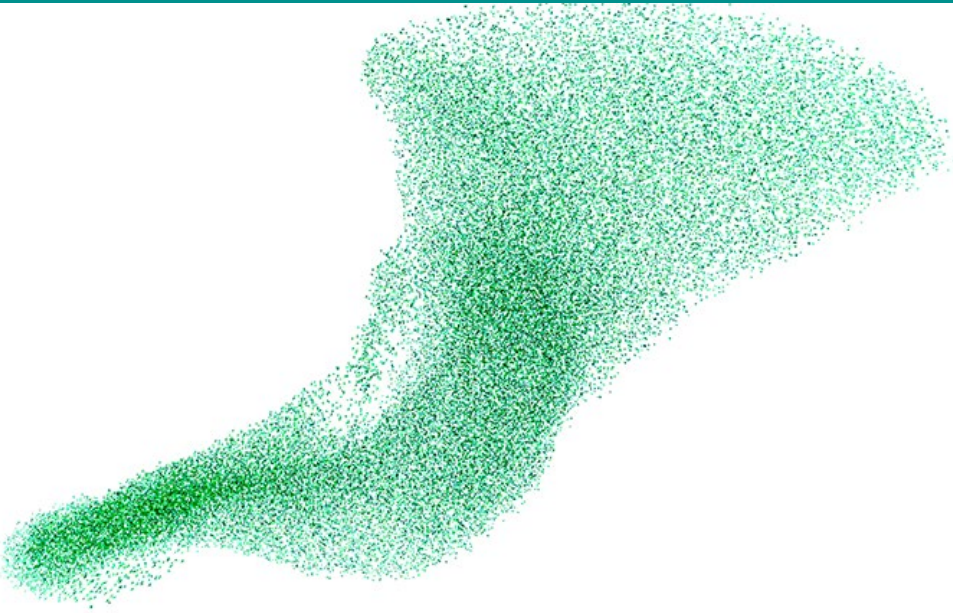

To become a member, you buy a share of it, then all services are life-time free. A share is about the price of a lunch. Members vote and decide on everything.

QAORI BEATS INFLATION AND KEEPS YOUR MONEY SAFE

The Qaori currency, inspired from the cowrie sea shell, which was the first money, is a fixed-value money, independent from governments, markets and banks.

Autonomous Decentralized Decentralized Competency-based Swarm Intelligence

Members decide by
democratic vote: one
person = one voice

(not the money but the people)

No platform fee!

Very low transaction fee: 1%

Payout from platform: 3%

Qaori financial services

Qaori is a cooperative financial service belonging to the members at the service of the members.

Payments, loans, credit unions, crowdsourcing, exchange, investment, global opportunities, super low-cost!

What Problem does does Qaori solve?

Non-Resilient &
Unsustainable
Economy!

WHAT IS THE EXPECTED FUTURE OF FINANCE?

We are all waiting for the next crisis, and we know that it will be coming, not if, just when.

The cycles of the global economy are repeating and people will suffer again. Maybe this next time more than ever: losing jobs, houses, cars, throwing us back by decades?

WE CAN MAKE THE ECONOMY RESILIENT!

Analyze the problem: hyper speculation and predator capitalism, centralized concentrated power of money.

The solutions proposal: let's create a sustainable resilient economy, with a stable currency at its heart.

There was not a single currency out there which is not volatile and dependent on speculation and market fluctuations.
That is why we built Qaori.

Our Path to a Resilient Economy

Free-to-use Cooperative Service Platform

Our Cooperative is a member-owned global organization providing free access to a wide range of practical services: buy, sell, pay, ship goods or services, book experts, learn and teach, manage events and tickets, etc. Qaori operates a bank, a crypto exchange, and many valuable services. Buy one share for the price of a lunch, and everything becomes 100% lifetime free!

Buy a Share and become a Member →

What do we get when we join Qaori?

- An incredible range of practical services for many people, for any size of business:
- All services are free to use: every member receives a shop on the marketplace and can sell any goods or services, event tickets, book sessions or lessons, no limits to your creativity!
- Very small transaction fees for payments of goods or services (1%)
- Withdraw money from the platform for 3%, to any bank, Paypal, Visa Card, cash (soon).
- Use fixed-value Qaori coins daily.

Who is Qaori for?

Everybody!

Everywhere!

Built for the cooperative world,
Qaori is for everyone:

- Small businesses
- Non-Profits
- Ambitious entrepreneurs
- Startups
- Individuals to transfer or exchange crypto or currencies
- Real estate developers
- Teachers and students
- Experts, lawyers, consultants
- Marketing agencies
- Event Organizers, etc.

The Future of the Economy

WILL THE ECONOMY SERVE THE PEOPLE AND THE PLANET? WITH QAORI, YES!

Qaori is an initiative to improve and evolve the course of the world economy by creating a parallel sustainable system. By offering free services and a stable currency to the one billion people on this earth (12% of the Human population) organized in cooperatives, we try to make a dent in the (economic) Universe.

IF A STABLE DECENTRALIZED CURRENCY IS USED, THE GOODS AND SERVICES PRODUCED BY RELENTLESS WORK BRING EQUAL MONEY, WHATEVER HAPPENS AROUND.

Qaori is nothing but a natural evolution and pending maturity process of the economy: In a digital world, it becomes possible for the first time to connect such large populations across countries and continents.

Facebook, Uber, and Amazon do it for money - Qaori does it for the people!

Who are the Founders?

A Team of Program Consultants and Economists

Robert 'Rosho' Hopp

Yuko Osao

WHO IS ROSHO

EUROPE, Thailand, Japan
